Okay, thanks. Apparently, she also has the FM letter to Pat.

We did not have to release anything because she already had our April 19 letter, she'd gotten it from DOGGR – Jon Iverson I think. Her FOIA wanted “everything” but I told her there was nothing much beyond the Feb 8 letter from DOGGR transmitting the AE package and our April 19 letter commenting on it. I told her we had several meetings but there were no written meeting minutes. She said she would look over the April 19 letter and call with questions. She is deeply concerned that we may approve the exemption, that is her focus. Beyond those two letters, there are emails between us and the state but they don't say anything more than setting up the various meetings. I

don't think there is anything substantive in emails and she was not inclined to have us search them.

Could you remind me what documents we released to the reporter.

Hello Ivry,

I sent you a note about this last week. Based on what I am hearing today I think you should close out the FOIA (# above) related to this newspaper reporter's inquiry, since she is working with OPA to get answers to the questions about the documents she already has. Let me know if you have any questions.

Thanks!

Michele

Did someone reach out to you to discuss?
